Has Been Prepared to Give Old Soldiers More Money and Red Tape Less.

Total abolition of all old soldiers omes, pension bureaus, medical and special examiners and the army of the clerks and accountants in the United States government, pension department and raising the pension of old soldiers to \$30 a month is provided for in the new pension bill which will be introduced at the next congress by Hon. William P. Subbard of Wheeling.

The bill, termed an act to amend the pension laws by increasing the Room 206. pensions of soldiers and sallors or their widows and orphans, who may have served in any war prior co 1866, in brief, asks that the govern meat do away with an inestimable mount of unnecessary expense in the pension department and give the veterans of the late wars a percent of the saving.

It provides for the helpless widows and orphans of soldiers and sailors that they get at least \$30 a month while not affecting these at present pensioned at a higher rate. It is so worded that, however, no person shall receive more than one pension for the same period and that nothing in it shall be construed to prevent any pensioner thereunder from prosecuting his claim and receiving his pension under any oth-

er general or special pension act. Furthermore it provides that all the pension agencies except that at Washington, D. C., be closed, likewise that all soldiers' homes be closed, after the soldiers receive their pension; while on the other hand it provides for the permanent mainttainance of one of the laargest and most healthful nowwest as soldiers' homes to be used for sheltering insane, idiots or otherwise permanently helpless and sheltering soldiers and sailors; and that in place of the army of cierks now employed, the secretary of the interior himself transact the pension business with a sufficient number of competent clerks, and that such such clerks be ex-soldiers if competent and that perference be given ex-soldiers when all else is given.
